## PROFESSIONAL SUMMARY

---

### Dynamic and Results-Driven Software Engineer

Specializing in Web Development, with hands-on experience from prestigious internships at **CodeSoft**, **CodeAlpha**, **Prodigy InfoTech**, and **Bharat Intern**. As a third-year B.Tech Computer Science student, I bring a strong foundation in creating and optimizing web applications, complemented by a good understanding of Data Structures and Algorithms. My academic journey and professional engagements have honed my technical skills and equipped me with the ability to deliver innovative solutions effectively, driving impactful results and achieving top-notch performance. My current focus is on learning Backend Development.
